## NEWS RELEASE

Ned McCormack, Communications Director (914) 995-2932

FOR IMMEDIATE RELEASE: September 30, 2013

### **BRONX RIVER PARKWAY NIGHT CLOSURES REVISED TONIGHT FROM YONKERS TO WHITE PLAINS Work is part of the Crane Road Bridge Replacement Project**

*Motorists are advised that there is a revised night closure on the Bronx River Parkway tonight.*

There will be limited access to **northbound Bronx River Parkway from the Sprain Brook Parkway in Yonkers to the Westchester County Center (Exit 22) in White Plains tonight, September 30 from 10 p.m. to 5 a.m.** The northbound parkway closures tonight are as follows:

- All northbound Bronx River Parkway traffic in Yonkers (six lane section of the parkway) will not have access to the four lane northbound Bronx River Parkway and will be detoured onto the Sprain Brook Parkway, to Central Park Avenue (NY 100) to White Plains.
- Local traffic will have access to the northbound Bronx River Parkway at the following locations (between the Sprain Brook Parkway and Harney Road): Paxton Avenue, Elm Street, Scarsdale Road, Thompson Street and Leewood Drive.
- Local northbound parkway traffic will be detoured at Harney Road to Scarsdale Avenue and East Parkway and re-entering the northbound parkway at Crane Road.
- Northbound parkway will be open to traffic at Crane Road and all points north.

These night closures are in addition to the previously announced ongoing midday parkway closures where access is limited to **northbound Bronx River Parkway from the Sprain Brook Parkway in Yonkers to the Westchester County Center (Exit 22) in White Plains weekdays starting Monday, September 30 to Friday, October 4 from 9:30 a.m. to 3:30 p.m.**

These closures are necessary to continue forming and pouring concrete for the west abutment as part of the Crane Road Bridge Replacement Project on the Bronx River Parkway.

Motorists are advised to seek alternate routes. Numerous variable message signs are being used to alert motorists of the upcoming closures. The project began in the summer of 2012 and will take three years to complete.
